What We Do

FACILITIES MANAGEMENT

We are a total properties and facilities management organization; we pride ourselves on delivering excellent services and even support when a project is completed; therefore, we offer property management as part of an integrated facility solution.

For a sustainable client's value, we offer a comprehensive range of facilities management.

We add value to facilities management through transparent procurement via market independence, environmental sustainability, single point of facilities management contact, and reduction of administration load to mention few.

Members of our team have the highest level of certifications in their respective fields of study, both locally and internationally.

PROPERTIES MANAGEMENT

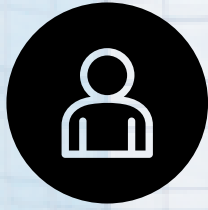

We are leaders in procuring the best materials and best hands in delivering on building projects. Each stage of the project is thoroughly carried out, making sure all I's are dotted, and T's are crossed.

We do not compromise on quality, and we ensure all timelines are met as at when due.

We are committed to clients' satisfaction, quality artistry and service thus prompting our establishing a network of trusted, dependable, reliable contractors and suppliers Planning, executing and evaluating projects according to predetermined timelines and budgets.

We manage project teams and ensure no compromises in quality control throughout the project's life cycle.

We align our delivery to achieve our customers' objectives.

PROJECT DEVELOPMENT

Preconstruction services:

The preconstruction schedule serves as the road map for design, development, and decisions about project scope, budget, and procurement. Therefore, our approach offers a controlled, effective use of preconstruction resources consistent with the progress required to acquire government approvals needed to complete the project on time and under budget.

General Construction Services:

We provide in-depth management and supervision of all of its projects, with hands-on involvement by the company's principals and project supervisors from start to finish. In addition to general building and tenant improvement, Propelpfm also provides added value to clients with its ability to self-perform structural and architectural concrete work, including forming, placing, and finishing.

Our Project management process encompasses an information system for the project to coordinate the client's and architect's goals. This comprehensive system includes numerous components ranging from scheduling, cost, control, procurement quality control, billing, project meetings, project commissioning, and project close-out.

At Propelpfm, project management services assure the client of a well-run, problem-free job site. The team of experienced highly professionals provides cost control, scheduling coordination, quality control, and timely execution of plans throughout the project.

The client's interest is represented throughout the project, from start to finish, ensuring schedule compliance, coordinating proper document control.
